

SHOW VET

Newsletter Issue 1

June 2022

ABOUT THE PROJECT

VET providers have faced a big challenge due to COVID-19. The need to provide online and distance learning possibilities at VET institutions has increased, but at the same time all teachers do not have the competence and skills to deliver quality online lessons. Teachers need training and new tools and especially peer network of trained mentors to support the work.

AIM

The aim of Smooth Hybrid and Online Working for VET-project is to increase teachers' competence on implementation of blended and distance teaching. The situation analysis survey of teachers' digital skills will be designed and conducted at the beginning of the project. Based on the survey results and the needs, a guide for teachers will be developed in the partner network. This guide serves as a basis for creating training material for teachers. Afterwards an impact survey will be carried out.

The SHOW-VET project aims to:

- Improve and increase know-how on e-learning among teachers and trainers
- Increase teachers' knowledge on implementation of blended and distance teaching
- Improve digital skills and competences
- Produce a Smooth Online Guide for teachers with pedagogical methods
- Make teachers' training material
- Train mentors and teachers
- Produce new e-learning materials

As an outcome of this project VET providers will have a new model and tools for the implementation of teachers' digital training process including the tools for needs analysis and impact analysis.

TARGET GROUPS

Teachers; Students; VET providers; Other stakeholders, such as companies

EXPECTED RESULTS

New training material and the impact survey will be piloted during the mentor teachers' training. These trained mentors will then train other teachers locally. Teachers will work in both local and international teams and produce new e-learning material for their own study fields.

Project no.

2021-1-FI01-KA220-VET-000025717

Duration

01/02/2022 – 31/01/2024

Coordinator

Seinäjoen koulutuskuntayhtymä
(Finland)

Partners

- Stichting voor Christelijk beroepsonderwijs en volwassen educatie Friesland/Frevoland (Netherlands)
- Apro Formazione S.c.a.r.l. (Italy)
- Departament d'educació – Generalitat de Catalunya (Spain)
- Keski-Pohjanmaan koulutusyhtymä (Finland)
- Jyväskylän ammattikorkeakoulu (Finland)
- EFVET (Belgium)

Teacher participants will answer to the impact survey before and after the training. The improvement of teachers' digital skills will be evaluated by analysing the results of the survey. As a final project result, a model for smooth online working for VET providers will be established.

The KoM of SHOW VET

The SHOW-VET kick-off meeting was held at an earlier stage online on the 10th of February 2022. The SHOW-VET kick-off meeting took place in person with all partners in Ähtäri on the 17-19 May 2022.

This is a KA2 Erasmus+ project which gathers 6 partners from different

European countries (Finland, Italy, Netherlands, Spain, and Belgium). The aim of this project is to provide a model for smooth online working for VET providers.

Titta Huhtamäki and Timo Paakkanen, from the Project Coordinator SEDU,

opened the meeting and introduced the partners, the main objectives of the project, and Gantt chart.

The SHOW-VET project partners dedicated two full days to discuss results of the situation analysis survey, e-learning methods in partner counties and on a smooth online guide for pedagogical methods and good practice.

As an outcome of this project VET providers will have a new model and tools for the implementation of teachers' digital training process including the tools for needs analysis and impact analysis.

Next meeting will take place in Netherlands.

Inclusive blended learning: EU working group on schools' seminar

These exchanges will support the implementation of the [Pathways to school success](#) initiative and will help to inform the development of existing and future policy measures on blended learning and inclusion in education and training.
