

TOURISM PROJECT EVALUATION: MENTIMETER TOOL

Finally the **Mentimeter**. useful for receiving student feedback.

Once finished the project, the students will be asked to answer two questions about it, in order to allow the teachers to know what is working and what has to be improved in the project from students point of view. This tool allows us to automate evidence, student feedback in order to improve the project for next years.

Teachers enter the questions in a template. Can choose the slide type, entries per participant, some image, etc.

Students enter their answers.
