

itALKS

The future of blended learning and teaching

TARGET GROUP: i-coaches and interested teachers

GOALS:

Bring teachers together to improve collaboration,
give inspiration and learn new tools,
functionalities and skills

NEEDED:

1. Application form for workshops
2. An interesting opening act
3. Multiple rooms
4. Interactive tools, feedback and recap
5. Informal bites and drinks at the end

PROGRAM

TIME

12:00 - 13:00	Central opening by FP-Design
13:00 - 14:00	Interactive teaching presentation by Sander van Acht
14:00 - 14:45	Workshop round 1: VR, Hololens, Canva and Nearpod
14:45 - 15:30	Workshop round 2: VR, Hololens, Canva and Nearpod
15:30 - 16:15	Workshop round 3: VR, Eduarte and Blended Learning
16:15 - 17:00	Closing ceremony by Daphne and FP-Design
17:00 - 18:00	Informal drinks and bites - let's connect!

DON'T FORGET TO

- Use recent events
- Book someone known
- Make them apply
- Record the workshops
- Use breaks
- Ask feedback
- Make sure they stay

ABOUT THE WORKSHOPS

VR

A Virtual Reality setup is ready for you in this workshop. You will be taught about the possibilities for your lessons and practical tips for implementing and software

Hololens

The Microsoft Hololens is perfect to enrich practical lessons. We have two available for this workshop, so indulge in the world of AR

Canva

The new tool available for all teachers: Canva. We explore the possibilities and features with you to improve your lessons

Nearpod

Another new tool: Nearpod. Interactive lessons were never this easy: all the possibilities will be explained to you during this workshop so that you can start right away.

Eduarte

The heart of our school, the student information system. How to log presence, student progress and testing.

Blended learning

A FP-Design production. What is blended learning and for which lessons is it suitable? We give examples, tips and helpful links.
